Journal of Sedimentary Petrology

INDEX TO VOLUME 32

A band of extraordinary calcareous concretions in the Upper Lias of Yorkshire, England 840
A method for determining the randomness of regionally distributed quantitative geologic data 813
A method of correcting hydrometer readings for temperature variations 871
A peel technique for unconsolidated sediments 609
A quick field or laboratory staining scheme for the differentiation of the major carbonate minerals 29
A squeezer for extracting interstitial water from modern sediments 329
A zircon-tourmaline-rutile maturity index and the interdependence of the composition of heavy mineral assemblages with the gross composition and texture of sandstones 440
Abrasion effects on arkose mixtures 226
Acetate peel technique, improved 870
Akimoto, Syun-ichi, Walker, James L., Sherman, G. Donald, Katsura, Takashi, and Kushiro, Ikuo, article by .. 299
Alberta, Banff, petrography of Pennsylvanian chert breccias and conglomerates, Rocky Mountain Group 249
Alberta, Canada, effect of texture on distribution of oil in Athabasca oil sands 312
Allen, J. R. L., article by 657
Alluvial fan deposits, relation of textural (CM) and patterns to depositional environment 211
Amsbury, David L., article by 5
Analysis of vectorial data 801
Announcements 352
Apelt, C. J., and Thom, A., "Field Computations in Engineering and Physics," review of 147
Appalachians, central, Martinsburg Formation (Ordovician), flysch and associated beds 39
Arkansas, Northwestern, and southwestern Missouri, lower Mississippian bioherms 629
Arkose mixtures, abrasion effects on 226
Aspects of diagenesis in some Irish Carboniferous limestones 776
Athabasca oil sands, Alberta, Canada, effect of texture on distribution of oil in 312
Australia, Sydney Harbour, clay minerals in sediments from 240
Awasthi, N. (Miss), and Misra, R. C., article by 764

Baird, D. M., discussion by 332
Band of extraordinary calcareous concretions in Upper Lias of Yorkshire, England 840
Banff, Alberta, petrography of Pennsylvanian chert breccias and conglomerates, Rocky Mountain Group 249
Barsdate, Robert J., note by 608
Bastrop County, Texas, petrology of Eocene Sabinetown-Carrizo contact .. 263
Beach and marine sands, systemic fractionation in environment off South African coast 602
Beach stratification, high angle, Sapelo Island, Georgia 309
Beeson, Carrol M., Main, Richard, Chilingar, George V., and Greer, F. Conrad, discussion by 140
Best paper award 624
Biederman, Edwin W., Jr., article by 181
Bima Sandstone, Cretaceous, Nigeria, deformed cross-stratification in 231
Bioherms, lower Mississippian, southwestern Missouri and northwestern Arkansas 629
Bonham, L. C., and Zimmerle, W., article by 751
Borden, Mississippian, crinoidal limestones at Stobo, Indiana, petrography of 397
Boswell, P. G. H., "Muddy Sediments," review of 882
Breccias and conglomerates, chert, Pennsylvanian, Rocky Mountain Group, Banff, Alberta, petrography of 249
Briggs, Louis I., McCulloch, David S., and Moser, Frank, article by 645
Bull, William B., article by 211

Caballo Mountains, New Mexico, Paleozoic carbonate rocks, quantitative petrographic study of 357
Cadigan, R. A., article by 813
Calcareous concretions in Upper Lias of Yorkshire, England 840
Calcite and dolomite, quantitative gasometric determination with Chittick apparatus 520
Canada, Athabasca oil sands, Alberta, effect of texture on distribution of oil in 312
Carbonate minerals, quick field or laboratory staining scheme for their differentiation 29
Carbonate-rock fabrics of three Missourian stratigraphic sections in Socorro County, New Mexico 579
Carbonate rocks, determination of CO_2 by controlled loss on ignition 877
Carbonate rocks, Paleozoic, Caballo Mountains, New Mexico, quantitative petrographic study of 357
Carboniferous limestones, Ireland, aspects of diagenesis in 776
Carozzi, Albert V., review by 148
Carozzi, Albert V., and Soderman, J. G., article by 397
Carpenter, Gene C., and Schmidt, Ronald

Bull, William B., article by 211

Caballo Mountains, New Mexico, Paleozoic carbonate rocks, quantitative petrographic study of 357
Cadigan, R. A., article by 813
Calcareous concretions in Upper Lias of Yorkshire, England 840
Calcite and dolomite, quantitative gasometric determination with Chittick apparatus 520
Canada, Athabasca oil sands, Alberta, effect of texture on distribution of oil in 312
Carbonate minerals, quick field or laboratory staining scheme for their differentiation 29
Carbonate-rock fabrics of three Missourian stratigraphic sections in Socorro County, New Mexico 579
Carbonate rocks, determination of CO_2 by controlled loss on ignition 877
Carbonate rocks, Paleozoic, Caballo Mountains, New Mexico, quantitative petrographic study of 357
Carboniferous limestones, Ireland, aspects of diagenesis in 776
Carozzi, Albert V., review by 148
Carozzi, Albert V., and Soderman, J. G., article by 397
Carpenter, Gene C., and Schmidt, Ronald

G., article by 423
Carrigy, Maurice, article by 312
Chemical analyses, computing mineral compositions of sedimentary rocks from 217
Chert breccias and conglomerates, Pennsylvanian, Rocky Mountain Group, Banff, Alberta, petrography of 249
Cherts and limestones, Mississippian, northwestern Highland Rim, Tennessee, petrography of 819
Chiapas, Mexico, cyclic deposits in Cretaceous Ocozocuautla Formation 99
Chilingar, George V., Greer, F. Conrad, Beeson, Carrol M., and Main, Richard, discussion by 140
Chilingar, George V., note by 136
Chittick apparatus, use in quantitative gasometric determination of calcite and dolomite 520
Chow, Tsaihwa, Tatsumoto, M., and Patterson, C. C., note by 866
Clastic rocks, staining and etching techniques in studying obscure structures in 530
Clay mineral diagenesis as a possible source of silica cement in sedimentary rocks .. 26
Clay minerals in sediments from Sydney Harbour, Australia 240
CO_2, determination in carbonate rocks by controlled loss on ignition 877
Collins, Eugene E., Creager, Joe S., and McManus, Dean A., article by 833
Compaction of shale, Cretaceous Dakota Sandstone, North Dakota 873
Comparison of moment measures for sieving and thin-section data in sedimentary petrological studies 15
Composition and origin of glacial till, Mexico and Kasoag quadrangles, New York 502
Computing mineral compositions of sedimentary rocks from chemical analyses 217
Concretions, calcareous, Upper Lias of Yorkshire, England 840
Conglomerates and chert breccias, Pennsylvanian, Rocky Mountain Group, Banff, Alberta, petrography of 249
Conolly, J. R., and Golding, H. G., article by 534
Creager, Joe S., McManus, Dean A., and Collias, Eugene E., article by 833
Cretaceous Bima Sandstone, Nigeria, deformed cross-stratification in 231
Cretaceous Dakota Sandstone, North Dakota, shale compaction in 873
Cretaceous Newcastle Sandstone, Wyoming and South Dakota, eroded oscillation ripple marks in 327
Cretaceous Ocozocuautla Formation of central Chiapas, Mexico, cyclic deposits in 99
Crinoidal limestones, Mississippian (Borden), Stobo, Indiana, petrography of 397
Crinoidal sediment, diagenesis of 848
Cross-bedding, trough 472
Cross-stratification, deformed, in Cretaceous Bima Sandstone, Nigeria 231
Cutch, the Runn of 92
Cyclic deposits in the Cretaceous Ocozocuautla Formation of central Chiapas, Mexico 99
Cyclic sedimentation of primary dolomite and limestone 451
Cynthiana Formation, Ordovician, north-central Kentucky, insoluble residues in 423

Dakota Sandstone, Cretaceous, North Dakota, shale compaction in 873
Data processing, electric, in sedimentary size analysis 833
Deformed cross-stratification in Cretaceous Bima Sandstone, Nigeria 231
Dennison, John M., article by 743
Depositional environment of alluvial-fan deposits, relation of textural (CM) patterns to 211
"Der Porenaraum der Sedimente," review of 148
Determination of CO_2 in carbonate rocks by controlled loss on ignition—additions and modifications 877
Determination of surface areas of sediments 140
Detrital dolomite in central Texas 5
Diagenesis in some Irish carboniferous limestones 776
Diagenesis of a crinoidal sediment 848
Diagenesis of clay minerals, possible source of silica cement 26
Distinction of shoreline environments in New Jersey 181
Dolomite and calcite, quantitative gasometric determination with Chittick apparatus 520
Dolomite, detrital, in central Texas 5
Dott, R. H., Jr., review by 882
Dreimanis, Aleksis, article by 520

Effect of texture on distribution of oil in the Athabasca oil sands, Alberta, Canada 312
Electric data processing in sedimentary size analysis 833
Electron microscopy of sand surface texture 124
England, Old Red Sandstone of Shropshire, petrology, origin and deposition of 657
England, Yorkshire, calcareous concretions in Upper Lias of 840
Eocene Sabinetown-Carrizo contact, Bastrop County, Texas, petrology of .. 263
Ephemeral water action preserved in closely dated deposit 608
Eroded oscillation ripple marks in Cretaceous Newcastle Sandstone, Wyoming and South Dakota 327
Etching and staining techniques in studying obscure structures in clastic rocks 530
Exploration, stratigraphic models in 415

Fabrics of carbonate-rocks of three Missourian stratigraphic sections, Socorro County, New Mexico 579
Fan, Pow-Foong, and Morris, William J., article by 226
Feldspar and quartz content in South Platte, Platte, and Missouri river sands 793

Ferm, John C. article by..... 104
"Field Computations in Engineering and Physics," review of..... 147
"Fluid Mechanics," review of..... 616
Flysch and associated beds of the Martinsburg Formation (Ordovician), central Appalachians..... 39
Folk, Robert L., article by..... 539
Folk, Robert L., discussion by..... 145
Fossils, possible loss of magnesium to surrounding environment..... 136
Fractionation of sand in shallow marine and beach environment, South African coast..... 602
Freeman, Tom, article by..... 475
Friedman, Gerald M., article by..... 15
Fuller, Arthur O., article by..... 602

Gasometric determination of calcite and dolomite by using Chittick apparatus 520
Georgia, Sapelo Island, high-angle beach stratification..... 309
Glacial till, Mexico and Kasoag quadrangles, New York, composition and origin of..... 502
Golding, H. G., and Conolly, J. R., article by..... 534
Grain orientation measurements, rapid methods for dimensional..... 751
Graphic aids for determining reliability of sample means and an adequate sample size..... 743

South African coast, systemic fractionation of sand in shallow marine and beach environment off..... 602
South Dakota and Wyoming, Cretaceous Newcastle Sandstone, eroded oscillation ripple marks in..... 327
South Platte, Platte, and Missouri river sands, quartz and feldspar content... 793
Sphericity and size of quartz grains in two turbidite formations..... 725
Squeezer for extracting interstitial water from modern sediments..... 329
Staining and etching techniques for studying obscure structures in clastic rocks.. 530
Staining for differentiation of major carbonate minerals, quick field for laboratory scheme..... 29
Stauffer, Karl W.k article by..... 357
Steinmetz, Richard, article by..... 801
Stobo, Indiana, Mississippian (Borden) crinoidal limestones, petrography of.. 397
Stratification, high-angle beach, Sapelo Island, Georgia..... 309
Stratigraphic models in exploration..... 415
Structures and other sedimentary markings, Vindhyan formations, Sone Valley and Maihar-Rewa area, India..... 764
Structures in clastic rocks, staining and etching techniques for studying..... 530
Structures in homogeneous sediments, X-ray radiography in the study of..... 201
Structures, primary, produced by tadpoles 138
Stylolites in volcanic rocks..... 534
Surface areas of sediments, determination of 140
Sydney Harbour, Australia, clay minerals in sediments from..... 240
Systemic fractionation of sand in the shallow marine and beach environment off the South African coast..... 602

Tadpoles, primary structures produced by 138
Tanner, William F., reviews by....147, 615, 616
Tatsumoto, M., Patterson, C. C., and Chow, Tsaihwa, note by..... 866
Temperature variations, method of correcting hydrometer readings..... 871
Tennessee, Highland Rim, petrography of Mississippian limestones and cherts from..... 819
Tesnus Formation, Marathon Basin, Texas,

paleocurrent study of 781
Texas, Bastrop County, petrology of Eocene Sabinetown-Carrizo contact .. 263
Texas, central, detrital dolomite in 5
Texas, quiet water oölites from Laguna Madre 475
Texas, Tesnus Formation, Marathon Basin, paleocurrent study 781
Textural (CM) patterns, relation to depositional environment of alluvial-fan deposits 211
Texture, sand surface, electron microscopy of 124
The hydraulic shape of sand particles 645
The petrography of Pennsylvanian chert breccias and conglomerates; Rocky Mountain Group, Banff, Alberta 249
The Runn of Cutch 92
The term graywacke 614
"Theoretical Geomorphology," review of .. 615
Thom, A., and Apelt, C. J., "Field computations in Engineering and Physics," review of 147
Thomson, A., Wilcox, F. B., and Heald, M. T., article by 291
Titanomaghemite and titanomagnetite in a Hawaiian soil 299
Titanomagnetite and titanomaghemite in a Hawaiian soil 299
Towe, Kenneth M., article by 26
Troell, Arthur R., Jr., article by 629
Trough cross-bedding 472
Turbidite formations, size and sphericity of quartz grains in 725

Unconsolidated sediments, peel technique for 609
Uranium contents and lead isotopes in experimental Mohole Cores, Guadalupe site 866

v. Engelhardt, Wolf, "Der Porenraum der Sedimente," review of 148
Vectorial data, analysis 801
Vindhyan formations of Sone Valley and Maihar-Rewa area, India, sedimentary markings and other structures in 764
Volcanic rocks, stylolites in 534

Walker, James L., Sherman, G. Donald, Katsura, Takashi, Kushiro, Ikuo, and Akimoto, Syun-ichi, article by 299
Wardlaw, Norman C., article by 776
Warne, S. St. J., article by 29
Warne, S. St. J., note by 877
Water action, ephemeral, preserved in closely dated deposit 608
Water, interstitial, squeezer method of extraction from modern stdiments 329
Weathering of silicate minerals, some considerations 284
West Virginia, Kanawha County, origin of interstitial porosity in Oriskany Sandstone 291
West Virginia, Morgan County, Silurian Rochester and McKenzie shales, petrography and origin of 539
Wilcox, F. B., Heald, M. T., and Thomson, A., article by 291
Wulf, George R., article by 472
Wulf, George R., note by 327
Wyoming and South Dakota, Cretaceous Newcastle Sandstone, eroded oscillation ripple marks in 327

X-ray radiography in the study of structures in homogeneous sediments 201

Yorkshire, England, calcareous concretions in Upper Lias of 840

Zimmerle, W., and Bonham, L. C., article by 751
Zircon-tourmaline-rutile maturity index, interdependence of composition of heavy mineral assemblages with gross composition and texture of sandstones 440
